

Workshop explains Basics of Alzheimer's disease

Alzheimer's disease is not a normal part of aging. It is a progressive and fatal brain disease that is the most common form of dementia.

The Basics: Memory Loss, Dementia and Alzheimer's Disease is a workshop, presented by the Alzheimer's Association, for anyone who would like to know more about Alzheimer's disease and related dementias.

The workshop's information includes:

- Symptoms and effects of Alzheimer's disease and other types of dementia
- How Alzheimer's affects the brain
- Causes and risk factors
- How to find out if it's Alzheimer's disease
- The benefits of early detection
- How to address a diagnosis of Alzheimer's disease
- Stages of the disease
- Treatment
- Hope for the future
- Ways the Alzheimer's Association can help

The Basics: Memory Loss, Dementia and Alzheimer's Disease workshop is perfect for community presentations, corporate employee wellness meetings, support group programming and more.
